Welcome to the Moulsecoomb & Bevendean Neighbourhood Action Plan (NAP)

When communities work with each other and with local services, there are more opportunities to listen, understand each other and shape services that work. It builds skills which can lead to volunteering or employment and creates a greater sense of belonging across communities and neighbourhoods. Supporting communities to develop networks with friends and neighbours creates more community activities, reducing social isolation, improving wellbeing, and reducing the need for more specialist services.

This NAP aims to fulfil the commitment within the Brighton & Hove Collaboration Framework working collaboratively to improve and develop Moulsecoomb & Bevendean.

Moulsecoomb & Bevendean Neighbourhood Action Plan (NAP)

Supported by the Trust for Developing Communities, the Neighbourhood Action Plan (NAP) shows the key priorities for the community and the council for the area. It has been agreed through a consultation process with all interested parties and is a working document that will change and develop as opportunities arise.

We asked four simple questions:

1. Are you, or would you like to be, involved in the community?
2. What is important to you in your community?
3. What are your hopes and goals for yourself and your community?
4. Who, or what, else could help achieve your goals?

What is the Moulsecoomb & Bevendean Neighbourhood Action Plan (NAP)

Moulsecoomb & Bevendean Partnership Event (Every 3 Months) NAP Partners will be:

- Sharing **success stories** from the NAP

- Creating **solutions to problems** faced achieving actions

- Tackling **emerging priorities** in Moulsecoomb & Bevendean

There are three themes that have been identified by the residents of Moulsecoomb & Bevendean in partnership with community groups, the voluntary sector and public services:

1. Health & Wellbeing

2. Community Spaces, Safety & Environment

3. Activity, Employment & Learning

In addition to residents' great ideas and local knowledge, there is a real desire to participate in this change. This will improve the local area and set up, run, and deliver services and activities through community groups and organisations.

Throughout the year, there will be NAP events taking place across the ward, enabling residents and service providers to share their progress, views and ideas.

Moulsecoomb & Bevendean Communities

There are **18,500 people** living in Moulsecoomb & Bevendean

Of these **60%** live in areas ranked in the **most deprived 20%** of England according to the Indices of Multiple Deprivation 2015.

Economy

Only 23% people aged 16-74 are in full-time employment, compared to **39%** across **England**

29% of children are in **out of work** households compared to **15%** in England

According to the 2011 census:

41% of adults aged 16-74 were recorded as economically **inactive** compared to **30%** in **England**

Vulnerable groups

39% of family households are lone **parent families**

The foodbanks in the ward also report the majority of referrals are for people in part-time work

39% of **children** are **living in poverty** compared to **19%** in **England**

Education/skills

11% of households in this ward are **student households**

79% of people in the ward live in an area of **educational deprivation** compared to **20%** in **England**

Moulsecoomb & Bevendean

Deprivation

Rising inequalities means growing differences between people and those with the very least are falling further behind.

Local residents know what it is like to be amongst those that have the least. Just like everyone else they want a better life for their children, a decent home to live in, to work and be paid fairly for it and good health and wellbeing for their families.

In response we have come together to develop the Moulsecoomb & Bevendean NAP. By working together with local people, community groups, public services and businesses we can achieve real long term change that builds a fairer city where Moulsecoomb and Bevendean have the same opportunities to benefit from the resources, facilities and services that make this such a special place to live.

Health Deprivation

49% of the community are living in health deprivation 'hotspots' compared to **20%** for England

Income

Department of work and pensions in 2016:

13% receive workless benefits compared to **11%** in England

Households in need of Housing Benefit

37% live in **social rented households** and **26%** in **council housing** compared to **18%** and **9%** respectively in England.

Moulsecoomb & Bevendean has **over 70%** experiencing barriers to housing compared to **21%** in England.

Digital divide

Another contributing barrier to employment and accessing services is the digital divide. This is not helped by **78%** experiencing lower broadband speeds.

Profile:

The Trust for Developing Communities

The Trust for Developing Communities have been supporting the communities of Moulsecoomb & Bevendean for the last 18 years and we are hopeful that this new Neighbourhood Action Plan marks an exciting step forward on tackling the key issues that you have identified for the area.

The Trust for Developing Communities (TDC)

believe that the whole community benefits when we come together to tackle poverty and inequality.

We look forward to bringing together TDC's community development workers, youth workers and specialist support from our Black & Minority Ethnic and Older People's teams to work with the communities of Moulsecoomb & Bevendean, and support you to build on your strengths to bring about positive social change.

Athol Halle,
Chief Executive, TDC

Health & wellbeing

There is only one GP surgery in the ward, alongside an NHS city service clinic, and access to primary care is a concern that was raised during the community research for the Clinical Commissioning Group's Big Conversation in 2018.

However, there is access to health services through the children's centre and schools and both communities embrace promotion of positive health choices and self-care for wellbeing. Every year TDC support Moulsecoomb Local Action Team and Action for Bevendean Community to administer Healthy Neighbourhood Funding to community health projects. This money comes as part of the council's

**The Avenue
GP Surgery**

third sector investment from Public Health and gives rise to over 30 projects each year from yoga classes to running on

'I was very clear on addressing the council on behalf of Muslim & Bangladeshi Women and their chances on the job market. There aren't enough opportunities out there, and I explained all the barriers that keep us from being able to access those: we are women, we are Muslim and we often have children'

Mishruna Kibria

Moulsecoomb
Multicultural
Group speaking

Part of wellbeing is a sense of belonging and neighbourliness where you live.

TDC support local Black and Minority Ethnic community groups to build connections to citywide and local services and groups. In 2018 a multicultural group, Bangladeshi women's group, community church and other residents groups will

the Downs and projects to improve diet and nutrition. Both organisations invite our health services to an annual event to improve local information and access.

come together as users of St George's Hall for their community open day. In 2018 the Bangladeshi women's group also addressed the citywide equality symposium.

The Bangladeshi Women's Group on a day out to a city farm which was set up by Bangladeshi women to inspire local growing projects.

Providing positive activities for local young people has been a priority for several decades and TDC has worked with partners to deliver youth work in the area for over a decade.

One of the great recent successes has been supporting the Moulsecoomb Amateur Boxing Club to build the extension to their building that they have been dreaming of.

Working in partnership with Boxing England, the Moulsecoomb Local Action Team and club members, TDC wrote a successful bid to Sport England for over £50,000. The extension will mean hundreds more local young people can benefit from recreational sport and fitness opportunities with some going on to box competitively.

The boxing club provides young people in Moulsecoomb & Bevendean with a vital diversionary activity and a social hub they can call their own. This leads to improved health and wellbeing amongst the community's young people.

Community Spaces, Safety & Environment

Moulsecoomb and Bevendean both have active, community run **Local Action Teams (LATs)**

that hold regular public meetings to discuss emerging local issues. There remains a significant amount of council housing in the ward and several active tenant and resident groups work with the council on maintaining their estate.

The action teams and residents groups work closely with the council, police, NHS and universities, where they push for positive change. A current priority issue is the increasing number of houses of multiple occupancy (HMO) in the ward and perceived impact on services resulting from loss of family homes.

To support the provision of accessible activities and opportunities are a number of community run facilities, from The Bevy, a vibrant cooperative pub and community facility to small community halls like Holy Nativity Community Centre.

These create space for informal community activity including the Bevendean coffee morning, which now offers a food bank and advice drop-in. This offers a way for families to find routes out of financial difficulty.

This is delivered in partnership with TDC, FareShare, and Brighton & Hove Digital. Residents have engaged in training provided by a wide range of providers including: Mind, Money Advice Plus, Possability People, Pavilions drug and alcohol services, Citizen's Advice Bureau and Brighton & Hove Energy Services Cooperative. Through these initiatives, the community is better connected and more resilient.

Advice Drop-in at Bevendean

“Meeting and having a chat with other people makes you feel good and less lonely plus you get to see different advisers.”

Local resident who regularly attends the coffee morning

As well as community centres there are a range of outdoor spaces valued by the communities; from Play parks to greens, woods and downland access. There are several independent community groups working in partnership with the council to maintain and improve these areas.

Activity, Learning & Employment

East Brighton Trust is a Community Interest Company that owns a number of properties across East Brighton.

The income from these properties enables delivery of a number of grant programmes to Moulsecoomb & Bevendean as well as others areas that represent Brighton's most disadvantaged and under represented groups.

Through this, the East Brighton Trust has funded many events and activities helping transform communities in the area. These range from local festivals, community gardens and youth clubs all the way to dance troupes, art classes and counselling services. In 2017 East Brighton Trust celebrated having awarded over £500k to over 100 charities and community groups in East Brighton.

Both communities produce and deliver community newsletters to households and encourage online communications as well as making use of community noticeboards.

The Bridge Community Education Centre

was a highly valued provider of affordable activity and learning as well as offering support on pathways to employment. It was forced to close in 2018 due to lack of finance, but their legacy is a range of passionate community groups able to continue their activity at other centres and a strong collaborative approach from local service partners enabling classes and projects to be rehoused in places like the primary school and library. This is testament to the resilience of the local community who immediately rallied to the situation. How these services and projects are best delivered going forward will be a significant early priority for this plan. Albion in the Community, BACA and the primary schools provide access to adult learning.
