Case Studies

- Intro
 - Funded by CCG
 - Evidencing work with people who are ‘frail’
 - How 3rd sector helps people to self manage
- Highlights (3rd sector on BHC)
 - B&H Food Partnership
 - Inspire Project
 - Lunch Positive

Case studies conclusion - a need for the public and third sectors to:

- build partnerships
- work together coherently
- agree effective value for money, unit costs and impact measurements

- Changes since TA2 (2008)
- Recommendations section for:
 - Policy makers
 - Funders
 - 3rd sector organisations
 - 3rd sector support organisations

A couple of questions to consider:

1. How could we work together to explore what a reduced 3rd sector might look like in the city and the impact that would have?
2. How could all organisations work together to make more of the monitoring and impact information we hold on what the third sector provides?
