East Brighton

Neighbourhood Action Plan
(NAP)
East Brighton is a great area to live with a strong community feeling, the residents have a great amount of pride in their area, which covers Whitehawk, Manor Farm, Bristol Estate and Craven Vale. We have busy community cafés, three vibrant schools and the Whitehawk Inn which offers many courses that are affordable for all. There are less opportunities for us residents here and all we ask is to be treated with the same fairness as the rest of the city. Don’t be shy come and meet us.

DueEast Trustee
Welcome to the East Brighton Neighbourhood Action Plan (NAP)

When communities work with each other and with local services, there are more opportunities to listen, understand each other and shape services that work. It builds skills which can lead to volunteering or employment and creates a greater sense of belonging across communities and neighbourhoods. Supporting communities to develop networks with friends and neighbours creates more community activities, reducing social isolation, improving wellbeing, and reducing the need for more specialist services.

This NAP aims to fulfil the commitment within the Brighton and Hove Collaboration Framework working collaboratively to improve and develop East Brighton.
There is a real desire to participate and residents have great ideas and local knowledge to improve the local area and to set up, run and deliver activities and services through community groups and organisations.

This Neighbourhood Action Plan is a commitment to working collaboratively to improve and develop East Brighton.

It is based on a range of information that has come from events, meetings and conversations with the residents from Whitehawk, Manor Farm, Bristol Estate and Craven Vale over the last 5 years.
There are nine themes that have been produced by the residents of East Brighton in partnership with community groups and public services:

1. Community Safety
2. Housing
3. Communication
4. Environment and Open Space
5. Festivals and Celebrations
6. Equalities, Inclusion and Faith
7. Enterprise Employment and Learning
8. Children and Families
9. Health and Well-being

Each theme has a set of actions and to ensure each action is achieved, specific partners have made a commitment to take lead responsibility. Each action has a clear positive impact on the East Brighton communities.
East Brighton Communities

Economy

26% of 16-74 year olds are in full-time employment compared to 36% in Brighton & Hove and 39% in England.

Vulnerable groups

45% of children in these neighbourhoods are living in poverty compared to 18% in Brighton & Hove and 19% in England.

Education/skills

37% of people in these areas have no qualifications compared to 16% in Brighton & Hove and 22% in England.

Of these 7,705 people live in Whitehawk, Manor Farm and Bristol Estate.

There are 14,010 people living in East Brighton.
Rising inequalities means growing differences between people and those with the very least are falling further behind. In East Brighton especially Whitehawk, Manor Farm and Bristol Estate statically residents are falling furthest behind in education, income, employment, health and wellbeing and housing.

Local residents know what it is like to be amongst those that have the least. Just like everyone else they want a better life for their children, a decent home to live in, to work and be paid fairly for it and good health and wellbeing for their families.

In response we have come together to develop the East Brighton NAP. By working together with local people, community groups, public services and businesses we can achieve real long term change that builds a fairer city where East Brighton has the same opportunities to benefit from the resources, facilities and services that make this such a special place to live.

**Health Deprivation**

- 7,741 people
- 100% experience 1 or more of the following:
  - Shortened life expectancy
  - Illness and disability
  - emergency hospital admissions
  - Mood and anxiety disorders

- 100% compared to 19.8% for England

**Income**

- (people out of work and low earners)
- 81% compared to 20% in England and 14% in Brighton & Hove

**Households in need of Housing Benefit**

- 1,730 households
- 52.9% compared to 16% in England

(Nov-17)

**Index of Multiple Deprivation**

- (people experiencing more than one of the above)
- 7,391 people
- 95.5% compared to 20.1% in England
The % of people ‘satisfied with their neighbourhood’ is higher than the average across England (ID) 2015 domain

Whitehawk, Bristol Estate and Manor Farm
Social rented households 70.3% (2,271)
England average 17.7%

Rented from Council 56.5% (1,827)
England average 9.4%
DueEast Neighbourhood Council
has been the organisation that has led the
dig NAP conversation and will continue to
play a key role in delivering its actions.

DueEast are a group of passionate residents from
Whitehawk, Bristol Estate & Manor Farm
who want to see local decisions made by local people.
They are determined to be advocates for East Brighton
and its residents, tackling exclusion and maximising
resources available to local communities.

DueEast Neighbourhood Council

Profile:

DueEast Neighbourhood Council

Hawks Community Café
DueEast Neighbourhood Council and Serendipity run
Hawks Community Café, located next to the Whitehawk
Library, staffed by local residents & providing
apprenticeships and volunteering
opportunities to local young people.

With support from the Serendipity’s community development
workers, DueEast have helped award a number of small local
grants to kickstart local community activity. Residents can bid
and vote online and vote at local events, making decisions
on which community groups receive funding. Hundreds of
residents have voted with 38 groups applying for funding to
date. DueEast also chairs focus and themed groups, produces
the community newsletter, and organises community events
and festivals.

www.dueeast.org.uk
A new on-street paid parking scheme in the Broadway, the main shopping area in Whitehawk, resulted in local people making less use of the shops. Residents met with local businesses and found they were losing up to 30% trade due to the parking changes.

Community workers supported traders, local residents and shoppers, council officers and ward councillors to create a task and finish group who worked collaboratively over many months to make the case for changing the parking arrangement. They consulted the local community, re-designing and submitting a new scheme for formal legal approval.

After almost 2 years’ work a new scheme was designed and approved and built with new signs, improved dropped kerbs and road crossing islands for pedestrians and free parking was reinstated for shoppers. This action resulted in a City Wide policy parking change and businesses reported an improvement in trade.

“This result made the local shops happier as trade increased, residents could nip to local shops instead of a major effort of a trip to the supermarket”
DueEast trustee & Whitehawk resident
Three new housing developments in the area through the City Council’s Homes for Neighbourhoods project brought great opportunities for new tenants but created questions for existing residents concerned about the impact of these on their local environment.

Due East and residents worked closely with the council housing team, local residents and community groups for well over a year to help ensure:

- The community were fully informed about these developments
- Residents were consulted creatively using the Planning for Real model about their views on the impact of the schemes
- There was regular liaison between the local community, the council and its contractors during the build of these schemes

Hundreds of local people have taken part in consultation and information events. A group of residents were trained in Planning for Real methods and helped organise public consultations alongside the Homes for Neighbourhoods team. Section 106 funds will be used in response demand to improve local facilities identified and prioritised by the local community. This engagement work will continue as construction teams move out and new residents move in and are welcomed into the existing community.
In 2005, the City Council who had run The Manor, a sports hall and recreation venue, could no longer afford to do so. A group of local residents and volunteers recognised the Manor’s value within the community so came together to create a new charity that would run the facilities.

Thirteen years on, the team of local residents running the Manor are going from strength to strength. 2017 saw them successfully completing a major capital fundraising campaign, resulting in the creation of superb new floodlit 3G and multi-use games areas alongside the sports hall. The income from the new facility bookings has enabled the Manor to move from a volunteer model to employ its first paid staff, recruited from the local community to run every aspect of the charity.

The Manor continues to be a major success story in the local community in East Brighton and remains a key community facility providing services provided by local people for local people.

Thank You

On behalf of the DueEast, Serendipity and Brighton & Hove City Council Communities and Equality teams we want to thank everyone who has contributed so far and to thank in advance all those who are and will be contributing to the achievement of all the actions in this plan. There is a lot of work to be done here and we look forward to working with you all in the coming years.

There is much work to be done and the nature of the challenges in East Brighton mean that working together across all sectors, is the only way to bring about long term improvements and change. We look forward to working with you to achieve this in the coming years.
Acknowledgements:

We would especially like to pay tribute to the hundreds of local residents who year in year out volunteer in the community to make a difference and to the many dedicated and skilled service providers who take such great pride from working in East Brighton with the local community, enabling the area to take its place as a connected and thriving part of the City.

However we recognise that by the time the list above is published many more people, organisations and services will have contributed through their work and efforts to improving the local area and community. The huge efforts and continued input from all is acknowledged and valued and by working together we will turn the actions within the NAP into a reality.
