Brighton & Hove City Plan Part Two

Proposed Implementation and Monitoring Indicators and Targets

June 2018
City Plan Part Two Implementation & Monitoring

This document sets out how the policies and site allocations proposed in City Plan Part Two (CPP2) will be implemented and how the council will undertake monitoring to ensure that the policies are working.

The City Plan needs clear arrangements for monitoring and reporting to residents, stakeholders, partners and councillors to ensure that policies are being effectively implemented, and to assess the impacts of policies and their contribution towards meeting the City Plan’s objectives and targets.

City Plan Part One (CPP1) Annex 1: Implementation and Monitoring Plan\(^1\) provides an overarching monitoring framework which defines indicators and targets for each CPP1 policy.

It is intended to extend this framework to include the monitoring of the Part Two policies once the CPP2 is adopted. For this reason, the format used in this document follows that used in the existing Implementation and Monitoring Plan.

For each policy in the draft CPP2, a separate monitoring table is presented setting out:

- which strategic objectives the policy will help deliver;
- implementation/issue(s) relating to the policy;
- key delivery mechanisms/partners involved in implementing the policy;
- policy indicators and how they will be measured;
- targets which will be used to measure progress and success in implementing the policy;
- timescales for achieving the targets and monitoring the indicators; and
- triggers and actions, showing what will be done where targets are not being achieved.

For some CPP2 policies, the proposed indicators and targets duplicate those for CPP1 policies or the City Plan Sustainability Appraisal\(^2\) and are therefore already being monitored. Where new indicators and targets are proposed for CPP2 policies, these will be incorporated within an extended Implementation and Monitoring Plan which will be consolidated to cover the policies in both Parts One and Two of the City Plan.

The Authority Monitoring Report (AMR) which is published annually will continue to provide the main source of monitoring information. The AMR will measure and assess the performance of the City Plan by showing progress against the defined indicators and targets in the Implementation and Monitoring document. Additionally, it will identify where targets have not been met, and identify any need to reassess policy implementation or undertake other actions as specified in the monitoring framework.
