Brighton & Hove Allotment Rules

1 Assignment / Sub-letting / Co-working

- 1.1 The tenancy of an allotment is personal to the tenant named in the agreement.
- 1.2 The tenant may not assign, sublet or part with possession or control of all or any part of their allotment.
- 1.3 The tenant may share cultivation by registering a co-worker. Co-workers must sign an agreement, countersigned by the tenant and sent to the council. For further information on co-workers refer to allotments web pages www.brighton-hove.gov.uk/allotments.
- 1.4 Within the first three months the tenant is within a probationary period if the tenant chooses to return the allotment to the council during this period the tenant will have rental returned minus a £20.00 administration fee. If the tenant undertakes no significant work (no less than 40% cultivation) to a plot within the first three months of receiving the plot then the tenancy will be terminated and the plot returned to council for re-letting.

2 Cultivation and weed control

- 2.1 The cultivated area is defined as the area that is cultivated for crop or flower production. Cultivation requires the tenant to regularly dig or mulch, or prune and weed 75% of the plot. Compost bins, glass houses, water butts, poly-tunnels and fruit cages are also included within the cultivated area, as are ornamental flower crops. Areas of lawn or meadow are not included within the cultivated area.
- 2.2 Allotments must be kept clean and maintained in a good state of cultivation (minimum 75% in cultivation) and fertility throughout the year. An area that is annually cleared of weeds yet remains un-cropped or un-planted during any one year will be considered as non-cultivated. The whole plot, including any uncultivated/leisure areas, must be kept tidy, safe and free from flowering weeds.

- 2.3 Allotments that have areas that are not suitable for production - such as heavily shaded areas, excessively sloping land or impoverished or polluted soils - may be allowed extended lawn and wildflower conservation areas. Extended grass areas must be agreed in writing with a council officer.
- 2.4 It is the tenant's responsibility to keep the plot free of weeds that cause a nuisance to adjoining tenants. Where on inspection or as the result of complaints, a plot with weeds is identified the tenant will be sent a weed notice letter. A further inspection will be carried out up to 8 weeks after the notice period has expired, and if there are no improvements in cultivation a notice of termination will be sent.

3 Trees and invasive plants

- 3.1 All trees, bushes and hedging over the absolute height of 2.5 metres (or 8 feet) in height are in breach of allotment rules and will lead to a notice and possible termination.
- 3.2 Tenants must not, without consent of a Council officer, cut or prune trees outside of their own allotment or plant any trees which will exceed an absolute height of 2.5 metres (or 8 feet) and/or allow self-seeded trees to grow on their allotment, including any that are growing through a perimeter fencing.
- 3.3 Fruit trees are permitted but will normally be included within the 25% of non-cultivated area. Where fruit trees are planted outside of the 25% non-cultivated leisure area, the soil beneath fruit trees must be planted with productive crops or other plants in accordance with cultivation rules.
- 3.4 Tenants who have fruit trees that have grown above 2.5 metres will be served a notice instructing them to prune trees to an acceptable height. Where trees are not pruned back to an acceptable height then the council reserves the right to prune back trees and charge the cost to the tenant.
- 3.5 All fruit trees must be selected so as to avoid breaching the height rule, with trees being selected to grow to around 2 metres but no higher than the absolute height of 2.5 metres. Trees should be grown

on dwarfing or semi dwarfing rootstocks and pruned so as not to exceed 2.5 metres in height.

- 3.6 The council reserves the right to enter any plot, with or without the consent of the tenant, to remove oversized trees and plants over 2.5 metres (or 8 feet) in height as well as cut down excessive and seeding weed growth or overgrown grass. If the removed vegetation has been planted by the tenant then removal costs will be charged to the tenant. Failure to pay for removal costs will result in tenancy termination.
- 3.7. Invasive plants such as Bamboo, all types of willow and fast growing conifers (including Christmas trees) are not permitted. If the invasive plants are not removed by the tenant then the tenancy will be terminated and plants removed at cost to the tenant.

4 Hedges and ponds

- 4.1 Tenants are responsible for maintaining any hedge on or abutting their plot. They should be kept to a height of around 2 metres with an absolute maximum height of 2.5 metres (8 feet). Hedge sides shall be trimmed at least once per year so as not to obstruct pedestrian or vehicular access.
- 4.2 Where hedges abut a perimeter boundary, road or vehicular haulage way, the council is responsible for maintaining the outside and top. The council may remove overgrown hedges if they obstruct access via haulage ways
- 4.3 Hedges should not be cut back during the bird nesting season, which runs from 1st March - 1st September.
- 4.4 The maximum surface area for a pond is 1.5 square metres and will be no deeper than 50cm deep. The pond area will be included as part of the non-cultivated area.
- 4.5 Ponds must be temporary and should not be constructed out of concrete or any other hard landscape material. All ponds should be sited at least 2 metres distance from any haulage way or path. Tenants are advised to provide secure fencing.

- 4.6 The use of sunken baths as ponds or for water storage is not permitted on safety grounds. Baths being brought onto the allotment space by an existing tenant will be seen as unwanted waste and will result in a tenant being put on notice. Historical baths brought on site before the 2010 rule review that are both functional and above ground will be exempt.

5 Plot use and storage

- 5.1 Tenants must use their allotment and any structures on it for their own personal use and must not carry out any business or sell produce from it (unless sold for the benefit of charity or the allotment association of that site.) Tenants may not use their allotment as a place of residence and/or sleep overnight.
- 5.2 The allotment is rented to the tenant for the purpose of cultivation of herb, flower, fruit and vegetable crops.
- 5.3 Only materials for use on the plot may be stored there, such as beanpoles, cloches, pots and netting for seasonal use.
- 5.4 Construction materials, paving and timber for infrastructure work must be used within 12 months.
- 5.5 Quantities in excess of the above will be regarded as unacceptable and the tenant ordered to remove them. Failure to do so will result in the materials being removed by the council, the tenant charged with the cost and notice of termination given.

6 Water, Bonfires & Other Restrictions

- 6.1 Sprinklers are prohibited. Hose pipes may be used to water directly if hand held or to fill water butts, provided this does not prevent other tenants having access to water supplies.
- 6.2 Mains water will be available from April 1st to October 31st. Water supply is subject to season restrictions and hosepipe bans.
- 6.3 Any form of unattended mains connected irrigation - be it open hose flood irrigation or seep hose irrigation - is forbidden and will lead to notice of termination.

- 6.4 All stand pipes and water butts beneath standpipes will be considered as a common resource to be shared with surrounding tenants. Any tenant who uses excessive quantities of water, or who is seen to consistently monopolize the water supply to the detriment of fellow tenants, will put on notice.
- 6.5 Bonfires are permitted for the burning of un-treated or un-painted woody waste only. The burning of any other materials – such as plastics, tyres, carpet, MDF, laminated wood - is strictly prohibited and will lead to immediate termination and referral for prosecution.
- 6.6 All open fires between 1st April and 1st November must be contained within an incinerator barrel, however small contained fires will be permitted for barbecuing.
- 6.7 Smoke from a bonfire, which could be a nuisance to neighbours by interfering with the use and enjoyment of their garden or property, or could affect the comfort or quality of life of the public, could result in action under the Environment Protection Act of 1990. Tenants who light a fire within 50ft (15.24m) of the centre of a highway may be guilty of an offence under the Highways Act 1980.
- 6.8 Fires must be attended at all times until all material has burnt and the fire extinguished. Fires must be kept to a manageable size to ensure safe burning and a minimum of smoke production. Any fire managed in an unsafe manner or producing excessive smoke will result in an instant notice and may lead to tenancy termination.
- 6.9 All potentially toxic materials should be removed from the allotment site and disposed of in the relevant civic amenity site. Failure to remove said materials will lead to termination and recovery of removal costs.
- 6.10 The council reserves the right to prohibit bonfires on a specific plot and/or group of plots.
- 6.11 Tenants may not remove any mineral, sand, gravel, earth or clay from the allotment gardens without the written permission from the council.

If the structure is not removed, the council may remove it and charge the tenant the full cost of removal and disposal.
