

BRIGHTON & HOVE CITY COUNCIL ROAD TRAFFIC REGULATION ACT 1984

Brighton & Hove (Prohibition of Driving) (Brighton Station) Experimental Order 2021 (TRO-9-2021)

STATEMENT OF REASONS

The Council's reasons for proposing the order named above are as follows:

- For avoiding obstructions to persons or other traffic using the access road and for preventing the likelihood of any such emergency access required.
- For facilitating the passage on the road for any authorised vehicles (including pedestrians and cyclists).
- Installing bollards will help alleviate traffic congestion in an area where the close proximity of train station, shops and other businesses promote high levels of pedestrian and cyclist traffic.
- Preventing traffic from parking using the access road will help prioritise bus movements in the nearby vicinity and will enhance safety by making it easier for cyclists and pedestrians to access the site

These changes will be monitored, and members of the public are encouraged to comment so that a decision can be made on whether or not these changes should be made permanent.
