

Etiquette in skateparks

- Skateparks are designed for wheeled sports only
- It is important that skateparks are used correctly to avoid injuries and accidents
- Young children must be supervised at all times, for their own safety and that of others
- Watch out for other users at all times
- Do not drop in to start riding unless you're certain that the ramp or area is clear
- Follow the lines – only use the lines of direction between ramps
- Do not cut across the bottom of ramps or ride in from the side
- Watch or ask the older users if you're unsure
- Wait your turn – if you're waiting on a ramp, you're in a queue. Please wait until it's your turn and don't go before others have finished
- Ramps are to be used one at a time
- Stand well back from the edge of all ramps while waiting – wheels and legs overhanging can cause unnecessary accidents
- Please use the bins provided for your litter.

Advice for parents

Novice riders can pose risks to themselves and other riders – please make sure your child is aware of the etiquette required when using skateparks.

Beginner's Skateboarding Tuition

BYC Skatepark is an indoor facility for skateboarding only that offers beginner's skateboarding tuition, open supervised sessions and a weekly female only skate night. Skateboards and safety equipment are available to use for free at all times.

For further information please visit www.bycskatepark.co.uk

Other Opportunities

We offer a range of events, activities and services throughout the year such as:

- Beginner's Skateboarding Holiday Tuition Programmes
- Female Skateboarding Tuition Programmes
- Go Skate Mental Wellbeing Programme
- Mobile Skatepark hire with qualified staff, skateboards and safety equipment provided.

Further opportunities for skateboarding tuition in the city can be found by visiting the Skateboard GB website:
