Please recycle **ALL** cooked and uncooked food waste

Keep me on your fridge

Do not place the following in your caddy

- ✗ Compostable packaging (except compostable caddy liners)
- ✗ Liquids such as milk, oil, soup or gravy
- ✗ Biodegradable plastic coffee pods
- ✗ Any other plastics / bioplastics
- ✗ Foil, cling film or other packaging
- ✗ Garden waste

Remember, you can recycle any mouldy or out of date food including ready meals – just remove all packaging.

Your food waste: from kitchen to compost

How to use your food waste caddies

Step 1 **During the week put food waste into your grey kitchen caddy.**

Line your caddy with the compostable liner provided (optional). Please don't use plastic bags.

Step 2 **Transfer food waste from your kitchen caddy to your outdoor caddy as often as you need to.**

When full, tie the liner and put it in your outdoor caddy. No amount of food waste is too small.

Step 3 **Place your outdoor caddy on or by the pavement in front of your property by 5am on your collection day.**

Make sure the outdoor caddy handle is upright to secure the lid and help make it rodent, animal and pest resistant.

Top tips:

Clean your caddy regularly.

Keep compostable caddy liners in a dry place.
